Web Developer II

October 2021 - Present (3 months)

Remote

Bidgala

Frontend Developer

August 2021 - September 2021 (2 months)

Remote

- Developed a new Art Advisory page using React and integrated it into the main website.
- Implemented several front-end features and performed lots of bug fixes.
- Self-motivated with the ability to work in a fast-paced and ambiguous start-up environment.
- Tech Stack → HTML5, CSS3, Bootstrap, JavaScript, jQuery, React, Python, Django, PostgreSQL.

Co.Lab | You Belong in Tech

Frontend Developer

May 2021 - June 2021 (2 months)

Remote

- Developed a React app called Fluence that empowers influencers with their marketability by providing them with personalized calculations based on their social media metrics.
- Collaborated in a cross-functional Agile team of a PM and a Designer and learnt how to pivot, de-scope, prioritize and ultimately ship a working product within a tight timeline.
- Used Figma and FigJam for prototyping and design collaboration, and Netlify for CI/CD.
